***DETAILED ACTION***

Claims 20-36 are pending in the present application.

Claims 1-19 have been canceled by Applicant. Claims 20-36 are rejected.

In response to communications filed on January 12, 2007, newly submitted Claims 20-36 are pending in the application, Applicant's arguments have been reconsidered but are not deemed persuasive for the reasons set forth below.

**Response to Applicant's Remarks**

Examiner has completed a through review and study of Applicant's amendment of January 12, 2007; especially, Applicant's newly submitted claims 20-36 and remarks at pages 8-9.

Newly submitted claim 20-36 are directed to an invention that is independent or distinct from the invention originally claimed for the following reasons:

- I. Claim 1-19 are drawn content usage condition determination class 705, subclass 51.
- II. Claims 20-36, are drawn to granting access classified in class 713, subclass 164.

The inventions are distinct, each from the other because of the following reasons:

Inventions I and II are related as subcombinations disclosed as usable together in a single combination. The subcombinations are distinct from each other if they are shown to be

separately usable. In the instant case, invention I has separate utility such as content usage condition determination without requiring the granting access of invention II.

Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper.

Since applicant has received an action on the merits for the originally presented invention, this invention has been constructively elected by original presentation for prosecution on the merits. Accordingly, newly submitted claims 20-36 are withdrawn from consideration as being directed to a non-elected invention. See 37 CFR 1.142(b) and MPEP § 821.03.

Because the newly submitted claims 20-36 are withdrawn and Claims 1-19 have been canceled, this office action is final.

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the date of this final action.

**Other Prior Art Made of Record**

The prior art made of record and not relied upon is considered pertinent to Applicant's disclosure. U.S. patents and U.S. patent application publications will not be supplied with Office actions. Examiners advises the Applicant that the cited U.S. patents and patent application publications are available for download via the Office's PAIR.
